# Sonus Networks Reports 2015 Second Quarter Results

# **Company Provides Improved Full Year Outlook**

WESTFORD, Mass., July 29, 2015 /PRNewswire/ -- <u>Sonus Networks</u>, Inc. (Nasdaq: SONS), <u>a global leader in enabling and</u> <u>securing real-time communications</u>, announced today results for the second quarter ended June 26, 2015.

### Second Quarter 2015 Highlights

- Total Company revenue was \$54.7 million, compared to \$75.6 million in the second quarter of 2014.
- Product revenue was \$27.0 million, compared to \$45.8 million in the second quarter of 2014.
- Service revenue was \$27.7 million, compared to \$29.7 million in the second quarter of 2014.
- Indirect (channel) represented 26% of product revenue, compared to 29% in the second quarter of 2014.
- Enterprise represented 22% of product revenue, compared to 20% in the second guarter of 2014.
- GAAP gross margin was 62.9%; non-GAAP gross margin was 65.9%.
- GAAP operating expenses were \$49.5 million; non-GAAP operating expenses were \$40.9 million.
- GAAP loss per share was \$0.31; non-GAAP loss per share was \$0.10.
- Cash and investments were \$113.5 million.

Ray Dolan, president and chief executive officer, commented, "Sonus' second quarter results reflect the strength of our technology and the progress we are making against our strategic objectives, including further diversifying our customer base and expanding our presence internationally. I'm very pleased to report that we won two new Tier-1 customers, one in Asia-Pacific and one in Central and Latin America. Our win in Asia-Pacific is in support of SIP Trunking services for one of the largest communication service providers in the region supporting over half a billion mobile subscribers in Asia and Africa. Our win in Central and Latin America is with one of the region's largest mobile operators. Both wins are for our session border control (SBC) solutions and were determined based in large part on the strength of our product and the strength of our team in each of those regions. We also won a multi-million dollar proposal with a global telecommunications operator and IT services to their end customers. Our commercial traction in the second quarter demonstrates that our solutions remain well-aligned with the strategies and growth requirements of our customers and partners."

Mark Greenquist, chief financial officer of Sonus, said, "Gross margin and operating expenses, on a non-GAAP basis, were both better than forecast in the second quarter, allowing us to improve our earnings outlook for the year. Cash and investments of \$113.5 million were also better than our forecast. The improvement in our business, particularly compared to the previous quarter, and progress on our cost reduction initiatives enabled us to deliver positive cash flow in the second quarter, which was also ahead of schedule, and improve our earnings expectations for the second half of 2015."

### **Cost Reduction Program On Track**

The anticipated savings associated with the Company's previously announced cost reduction program are on track. The Company continues to expect to achieve approximately \$20 million of annualized savings as compared to full year 2014. The Company's net restructuring expense in the second quarter was \$1.5 million. This reflects \$2.9 million accrued for severance related to the implementation of the cost reduction plan, which was substantially lower than the \$5.0 million estimated at the time the initiative was announced, offset by \$1.4 million benefit in connection with the termination of a facility lease in Fremont, CA. The Company paid \$2.5 million in the second quarter of 2015 for severance-related expenses under this initiative and expects to pay the remaining \$0.4 million in the third quarter of 2015.

### **Cash and Investments**

The Company ended the second quarter of 2015 with \$113.5 million in cash and investments as compared to cash and investments of \$112.8 million at the end of the first quarter of 2015.

### **Second Quarter Company News**

The Company announced several noteworthy commercial relationships and product developments during the second quarter, including:

On May 4, 2015, Sonus announced the completion of its multi-phase virtualization strategy with the introduction of virtual editions of Sonus Insight Element Management System (Insight EMS), Sonus DataStream Integrator (DSI), and Sonus NetScore. Sonus now delivers a completely virtualized product portfolio to service providers and enterprises looking to virtualize their communication networks to help reduce the time, risk and expense of introducing new services within their networks. The portability and flexibility of these products make them the ideal choice when moving to virtualization technology. By using common management and code base, Sonus has provided a low cost path for existing customers as they evolve their networks to virtualization architecture.

Also on May 4, 2015, Sonus introduced new software updates to the Sonus SBC 1000 and Sonus SBC 2000 Session Border Controllers (SBCs), designed to deliver key Microsoft Skype for Business (Enterprise Voice) functionality, as well as strategic enhancements devoted to simplify use, improve call support and bolster security during real-time Internet Protocol (IP) communications. Sonus is focused on helping enterprises optimize Microsoft Skype for Business Enterprise Voice deployments by securing Session Initiation Protocol (SIP) trunking services at the network border and providing a more seamless flow of real-time communications.

On May 6, 2015, Sonus announced it expanded its Alcatel-Lucent CloudBand<sup>™</sup> Ecosystem presence with theonus Diameter Signaling Controller Software edition (DSC SWe) and Sonus Network-as-a-Service (NaaS) IQ. The Sonus DSC SWe and Sonus NaaS IQ joined the Sonus Session Border Controller Software edition (SBC SWe) with inclusion into the Alcatel-Lucent CloudBand<sup>™</sup> Ecosystem. The Alcatelucent CloudBand<sup>™</sup> Ecosystem Program is the first open community dedicated to accelerating the market development of Network Functions Virtualization (NFV). Sonus and the NFV community members have focused, and plan to continue to focus, on collaborating and integrating services and solutions to accelerate the adoption of NFV to create new business opportunities across the industry.

Also on May 6, 2015, Sonus announced a relationship with Plantronics, Nectar and Numonix to ensure full interoperability of each companies' Microsoft Skype for Business supported network devices, offering customers a cutting edge partner ecosystem that enables, supports and enhances Microsoft Skype for Business Enterprise Voice deployments.

### 2015 Third Quarter and Full Year Outlook

The Company's outlook is based on current indications for its business, which is subject to change. Gross margin, operating expenses and earnings (loss) per share are presented on a non-GAAP basis. A reconciliation of the non-GAAP to GAAP outlook and a statement on the use of non-GAAP financial measures are included at the end of this press release.

	Q315 Guidance	FY15 Guidance
Total Company Revenue	Approx. \$65 million	\$245 million to \$250 million
Gross Margin <sup>1</sup>	67.5% to 68.5%	Not provided
Operating Expenses <sup>1</sup>	\$40 million to \$41 million	Not provided
Earnings/(loss) per share <sup>1</sup>	\$0.05 to \$0.08	\$(0.10) to \$0.00
Diluted Shares	50.5 million	50.0 million

1) Presented on a non-GAAP basis. Please see reconciliation in press release appendix.

# **Conference Call Details:**

Date: July 29, 2015 Time: 8:30 a.m. (ET) Dial-in number: 800 736 4594 International Callers: +1 212 231 2918

The company will offer a live, listen-only Webcast of the conference call via the Sonus Networks Investor Web site at <a href="http://investors.sonusnet.com/events.cfm">http://investors.sonusnet.com/events.cfm</a> where supporting materials, including a presentation and supplemental financial and operational data, have been posted.

### **Replay Information:**

A telephone playback of the call will be available following the conference call until August 12, 2015 and can be accessed by calling 800 633 8284 or +1 402 977 9140 for international callers. The reservation number for the replay is 21771402.

### **About Sonus Networks**

Sonus brings intelligence and security to real-time communications. By helping the world embrace the next generation of cloudbased SIP and 4G/LTE solutions, Sonus enables and secures latency-sensitive, mission critical traffic for VoIP, video, instant messaging and online collaboration. With Sonus, enterprises can give priority to real-time communications based on smart business rules while service providers can offer reliable, comprehensive and secure on-demand network services to their customers. With solutions deployed in more than 100 countries and nearly two decades of experience, Sonus offers a complete portfolio of hardware-based and virtualized Session Border Controllers (SBCs), Diameter Signaling Controllers (DSCs), Network as a Service capabilities, policy/routing servers and media and signaling gateways. For more information, visit <u>www.sonus.net</u> or call 1-855-GO-SONUS.

### Important Information Regarding Forward-Looking Statements

The information in this release contains "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995, which are subject to a number of risks and uncertainties. All statements other than statements of historical facts contained in this release, including statements in the sections "Cost Reduction Program On Track" and "2015 Third Quarter and Full Year Outlook" of this release; statements regarding our future results of operations and financial position, industry developments, business strategy, plans and objectives of management for future operations; and plans for future cost reductions are forward-looking statements. Without limiting the foregoing, the words "anticipates", "believes", "could", "estimates", "expects", "expectations", "intends", "may", "plans", "seeks", "projects" and other similar language, whether in the negative or affirmative, are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words.

Forward-looking statements are based on our current expectations and assumptions regarding our business, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors, including, but not limited to, the timing of customer purchasing decisions and our recognition of revenues; economic conditions; adjustments identified in the course of the Company's quarter-end accounting review; our ability to recruit and retain key personnel; difficulties supporting our strategic focus on channel sales; difficulties retaining and expanding our customer base; difficulties leveraging market opportunities; the impact of cost reduction and restructuring activities; our ability to realize benefits from the Network Equipment Technologies, Inc. (NET) and Performance Technologies, Incorporated (PT) acquisitions and the Treg Labs, Inc. (Treg) asset acquisition; the effects of disruption from the PT and Treg transactions, making it more difficult to maintain relationships with employees, customers, business partners or government entities; the success implementing the integration strategies of NET, PT and Treg assets; litigation; actions taken by significant stockholders; difficulties providing solutions that meet the needs of customers; market acceptance of our products and services; rapid technological and market change; our ability to protect our intellectual property rights; our ability to maintain partner, reseller, distribution and vendor support and supply relationships; higher risks in international operations and markets; the impact of increased competition; currency fluctuations; the impact of the reverse split of our common stock and changes in the market price of our common stock; and/or failure or circumvention of our controls and procedures. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. We therefore caution you against relying on any of these forwardlooking statements. Important factors that could cause actual results to differ materially from those in these forward-looking statements are discussed in Part I, Item 2 "Management's Discussion and Analysis of Financial Condition and Results of Operations", Part I, Item 3 "Quantitative and Qualitative Disclosures About Market Risk," and Part II, Item 1A "Risk Factors" in the Company's most recent Quarterly Report on Form 10-Q. Any forward-looking statement made by us in this release speaks only as of the date of this release. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law.

# **Discussion of Non-GAAP Financial Measures**

Sonus management uses a number of different financial measures, both GAAP and non-GAAP, in analyzing and assessing the overall performance of the business, making operating decisions, planning and forecasting future periods, and determining payments under compensation programs. Our annual financial plan is prepared both on a GAAP and non-GAAP basis, and the non-GAAP annual financial plan is approved by our board of directors. Continuous budgeting and forecasting for revenue and expenses are conducted on a non-GAAP basis (in addition to GAAP) and actual results on a non-GAAP basis are assessed against the annual financial plan. We consider the use of non-GAAP financial measures helpful in assessing the core performance of our continuing operations and liquidity, and when planning and forecasting future periods. By continuing operations we mean the ongoing results of the business excluding certain expenses and credits, including, but not limited to: cost of product revenue related to the fair value write-up of acquired inventory, stock-based compensation, amortization of intangible assets, depreciation expense related to an abandoned facility, divestiture costs, acquisition-related expense, restructuring and other income arising from the settlement of litigation related to prepaid royalties for software licenses. We consider the use of non-GAAP earnings (loss) per share helpful in assessing the performance of the continuing operations of

our business. While our management uses non-GAAP financial measures as a tool to enhance their understanding of certain aspects of our financial performance, our management does not consider these measures to be a substitute for, or superior to, GAAP measures. In addition, our presentations of these measures may not be comparable to similarly titled measures used by other companies. These non-GAAP financial measures should not be considered alternatives for, or in isolation from, the financial information prepared and presented in accordance with GAAP.

Investors are cautioned that there are material limitations associated with the use of non-GAAP financial measures as an analytical tool. In particular, many of the adjustments to Sonus' financial measures reflect the exclusion of items that are recurring and will be reflected in our financial results for the foreseeable future.

As part of the assessment of the assets acquired and liabilities assumed in connection with the PT acquisition, we were required to increase the aggregate fair value of acquired inventory by \$1.8 million. The acquired inventory was recorded as cost of product revenue through June 27, 2014. We believe that excluding the incremental cost of product revenue resulting from the fair value write-up of this acquired inventory facilitates the comparison of our operating results to our historical results and to other companies in our industry.

Stock-based compensation is different from other forms of compensation, as it is a non-cash expense. For example, a cash salary generally has a fixed and unvarying cash cost. In contrast, the expense associated with an equity-based award is generally unrelated to the amount of cash ultimately received by the employee, and the cost to us is based on a stock-based compensation valuation methodology and underlying assumptions that may vary over time. We believe that excluding non-cash stock-based compensation expense from our operating results facilitates the comparison of our financial statements to compare our financial results to our historical operating results and to other companies in our industry.

We exclude the amortization of acquired intangible assets from non-GAAP expense and income measures. These amortization amounts are inconsistent in frequency and amount and are significantly impacted by the timing and size of acquisitions. Although we exclude amortization of acquired intangible assets from our non-GAAP expenses, we believe that it is important for investors to understand that intangible assets contribute to revenue generation. We believe that excluding the non-cash amortization of intangible assets facilitates the comparison of our financial results to our historical operating results and to other companies in our industry as if the acquired intangible assets had been developed internally rather than acquired.

During the second quarter of 2015, we reached an agreement with the landlord of one of our previously restructured facilities to vacate the facility without penalty or future payments. As a result, we were able to vacate the facility earlier than originally planned. In connection with this settlement, we recorded \$0.3 million of incremental depreciation expense to account for the change in estimated life of the fixed assets related to this facility. We believe that excluding this incremental depreciation expense facilitates the comparison of our financial results to our historical operating results and to other companies in our industry.

We consider certain transition, integration and other acquisition-related costs to be unpredictable and dependent on a significant number of factors that may be outside of our control. We do not consider these acquisition-related costs to be related to the continuing operations of the acquired business or the Company. In addition, the size, complexity and/or volume of an acquisition, which often drives the magnitude of acquisition-related costs, may not be indicative of such future costs. We believe that excluding acquisition-related costs facilitates the comparison of our financial results to our historical operating results and to other companies in our industry.

We have recorded restructuring expense to streamline operations and reduce operating costs by closing and consolidating certain facilities and reducing our worldwide workforce. We recorded \$2.9 million of restructuring expense in the second quarter of 2015 for severance in connection with our recently announced restructuring initiative. We review our restructuring accruals regularly and record adjustments to these estimates as required. We recorded such an adjustment to our results for the current quarter, the effect of which was a restructuring credit of \$1.4 million in the three months ended June 26, 2015. We recorded restructuring credits aggregating \$1.8 million in the six months ended June 26, 2015. We also recorded restructuring expense in both the three and six month periods ended June 27, 2014. We believe that excluding restructuring expense and credits facilitates the comparison of our financial results to our historical operating results and to other companies in our industry.

On June 20, 2014, we sold the Multi-Protocol Server (MPS) business that we had acquired in connection with the acquisition of PT. We incurred \$0.4 million of transaction costs related to this divestiture in the second quarter of 2014. We do not consider these divestiture costs to be related to our continuing operations. We believe that excluding divestiture costs facilitates the comparison of our financial results to our historical operating results and to other companies in our industry.

In the first quarter of 2014, we recorded \$2.25 million of other income related to the settlement of a litigation matter in which we recovered a portion of our losses related to the impairment of certain prepaid royalties for software licenses which we had written off in fiscal 2012. We believe that excluding the other income arising from this settlement facilitates the comparison of our results to our historical results and to other companies in our industry.

We believe that providing non-GAAP information to investors, in addition to the GAAP presentation, will allow investors to view the financial results in the way management views the operating results. We further believe that providing this information helps investors to better understand our financial performance and evaluate the efficacy of the methodology and information used by our management to evaluate and measure such performance.
