ITEM 5. OTHER EVENTS.

On July 31, 2001, Sonus Networks, Inc., completed the purchase of certain intellectual property and other assets of privately-held Linguatq Incorporated, a Delaware corporation, headquartered in McLean, Virginia. Linguatq is a provider of data distribution and billing application software for both next generation and legacy networks. Linguatq's patented technology interoperates with a variety of hardware and software platforms and is designed to reduce back office integration time and provide rapid introduction of new services and lower maintenance costs.

Sonus purchased these assets from Linguatq and its secured creditors in exchange for 221,753 shares of Sonus common stock and approximately \$225,000 in cash. Pursuant to a registration rights agreement entered into by Sonus, Linguatq and these creditors, Sonus has agreed to register the resale of these shares by such parties under the Securities Act of 1933. The purchase is expected to result in a one-time non-cash charge in Sonus' third quarter of fiscal 2001, currently estimated to be in the range of \$3 to \$4 million, for purchased in-process research and development.

Since its inception in 1995, Linguatq has financed its operations and development efforts through the private sale of approximately \$30,000,000 of debt and equity securities. Sonus has employed some of the former employees of Linguatq, including Michael Peterson, founder and chief technology officer and will maintain an office in Virginia.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
