Sonus' Virtual Products Selected by Dimension4 to Securely Deliver its Cloud-hosted UCaaS Solution

Sonus' SBC SWe and PSX SWe Enables Secure, Reliable and Scalable Real-Time Communications for Dimension4's SKYPEvault Customers

WESTFORD, Mass., March 28, 2016 /PRNewswire/ --

Key Takeaways:

- | Sonus' virtual solutions selected to support Dimension4's Microsoft Skype for Business Enterprise solution, SKYPEvault.
- | Sonus' virtual portfolio addresses service providers' requirements for Network Functions Virtualization (NFV) by providing them with the ability to scale with Cloud-based delivery platforms.
- | Sonus' Session Border Controller (SBC) and Policy (PSX) portfolio integrate with Skype for Business deployments, whether on-premises, managed, hybrid or Office 365.

[Sonus Networks](#), Inc. (Nasdaq: SONS), [a global leader in secure and intelligent Cloud communications](#), announced today that [Dimension4](#), a leading provider of secure Cloud-based solutions, selected Sonus' SBC Software Edition (SWe) and PSX SWe to enable secure, reliable and scalable real-time communications for its SKYPEvault Unified Communications-as-a-Service (UCaaS) solution.

SKYPEvault leverages Session Initiation Protocol (SIP) to deliver a range of Skype for Business services to enterprises. Dimension4 needed a way to secure its VoIP border, enable provisioning of cost-efficient UCaaS services and reduce operating costs.

Sonus' SBC SWe and PSX SWe provide the ability to quickly turn-up SBC and routing functionality to deliver built-in media transcoding, network security, robust SIP interworking, intelligent routing and simplified network management within public and private virtual environments. Dimension4 chose the SBC SWe and PSX SWe to reduce the time, risk and expense of introducing new services within its network. The deployment flexibility and scalability of these Cloud-ready products make them the ideal choice for Dimension4's growing operational strategy.

Quotes:

"With deployments in the United States and Europe, Dimension4 is a leading provider of secure, Cloud-based Skype for Business solutions," said Anthony Zabit, Dimension4, CEO. "By choosing Sonus we are able to provide our customers with superior value as they look to take advantage of a secure and reliable Unified Communications service that fits their business needs."

"Dimension4 selecting the SBC SWe and PSX SWe is further validation that service providers can rely on Sonus to secure and enable their Cloud-based networks," said Mykola Konrad, Sonus vice president, Product Management and Marketing. "Sonus' virtualized portfolio is built with the flexibility to help organizations grow, giving service provider's a better way to fulfill their network Cloud migration strategies."

Other Facts:

- | Sonus helps organizations optimize Skype for Business voice deployments by securing SIP trunking services at the network border and providing a seamless flow of SIP-based multi-vendor media for UC deployments.
- | Sonus is a Microsoft Gold Communications Partner.
